# AGROSHIELD

## Perimeter Pest Control

### What AGROSHIELD Does:

- 1. Establishes a Perimeter Strip** – a band around your home that keeps insects at bay
- 2. Foundation Coverage** – spray foundation, cracks, crevices and other “bug doorways”
- 3. Mulch Beds** – moist breeding ground for insects, gets special care
- 4. Window Wells** – common entry point for insects, gets special care
- 5. Trash Areas** – ants and other insects thrive around trash, will get thorough coverage
- 6. Thresholds** – doors are for people and pets, outside of doors get special attention
